

PIYUSH BORKAR

Software Developer

☎ +91-9764057350 🌐 [Portfolio](#) 🏠 [Github](#) 🔗 [Linkedin](#) ✉ piyushborkar95@gmail.com

Skills

Programming Languages: JavaScript, TypeScript, C++

Web Technologies: React.js, Node.js, Express.js, NestJS, TypeORM, HTML5, CSS3, Tailwind CSS

Databases: MySQL, MongoDB

Tools: Git, GitHub, Postman, AWS, Docker, Redis

Experience

Backend Developer

May 2025 – Present

Atina Technology

Tech Stack: NestJS, Node.js, MySQL, TypeORM, Microservices

- Engineered backend services for an Emergency Alarm Management System used by **13,000+ users** across web and mobile platforms.
- Built **NestJS-based cron microservices** automating alarm workflows (auto-closure, reminders, scheduling, escalation), reducing manual operational effort by **60%**.
- Implemented **RESTful APIs** for the Admin Monitoring dashboard and integrated **Azure Web PubSub (WebSockets)** to enable real-time alarm updates and system actions.
- Delivered role-based access control, dynamic menu permissions, vehicle management, and user administration modules for secure platform operations.

Full Stack Developer

Oct 2024 – April 2025

Radical Global

Tech Stack: React.js, React Native, Node.js, Express.js, MySQL, Shopify

- Developed a **Creditors and Debtors financial management application** to track transactions and balances, supporting **3,000+ active users** and improving financial record management.
- Designed the Mukteshwari event management platform and a custom Guard Provider app tailored to client needs.
- Built and optimized two dynamic Shopify applications with a focus on scalability, performance, and efficient data management.

Projects

CompileHub (AI-Enhanced Compiler) | 2025

[Link](#) — [Github](#)

- Architected CompileHub, an online compiler supporting 5 programming languages: C++, Python, Java, JavaScript & C.
- Integrated an “Optimization Tips with AI” feature that analyzes code and provides optimization suggestions along with improved code.
- **Tech Stack:** React.js, Tailwind CSS, Material UI, Node.js, Express.js, MongoDB, Docker

QueryMinds (AI-Powered Chatbot) | 2025

[Link](#) — [Github](#)

- Built a MERN stack chatbot web app that efficiently resolves client queries.
- Utilized Google’s Gemini API to receive and resolve user queries dynamically.
- Integrated Razorpay to monetize usage, directing users to a payment page after 20 queries
- **Tech Stack:** React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Razorpay

GitShield (.gitignore generator) | 2024

[Link](#) — [Github](#)

- Created a full-stack web app that generates .gitignore files for the developer community.
- Leveraged the Tiptal API to support over 550 file types.
- **Tech Stack:** React.js, Tailwind CSS, Node.js, Express.js

Achievements

- **DSA Enthusiast:** Solved 250+ problems on [LeetCode](#) and [GeeksforGeeks](#)
- **Hackathon Achiever:** Secured 7th place among 400+ participants in the CodeQuest Hackathon.

Education

Bachelor of Technology – Computer Science & Engineering

Graduated: 2024

Priyadarshini College of Engineering, Nagpur

CGPA: 8.4 / 10
